Business Responsibility and Sustainability Report (BRSR) FY 2022-23

Delivering Business Responsibly and Sustainability

In its continued efforts to enhance disclosures on ESG standards, BCML aims to drive greater transparency around how its businesses are creating value by contributing towards a sustainable economy, by disclosing its performance during the financial year 2022-23 against the nine principles of 'National Guidelines on Responsible Business Conduct' (NGBRC), including integration of these principles in its policies and processes.

At BCML, our environmental commitment begins from organization-wide sensitization and training. As an organisation, we understand the need to encourage innovation and emerge as a greener, stronger, and smarter business. Being in the sugar industry, we take utmost care of our environment through the enhancement of our processes.

Sustainability is one of the key strategic pillars for BCML

Sustainability and climate-related issues are overseen by instituting a range of initiatives to ensure health, well-being, and food security of people by driving down waste,

reducing emissions, and engaging with communities to achieve tangible sustainability impacts across society.

As far as governance is concerned, we believe that the way to the future is through a replacement of adhocness with predictability; we deepen our system orientation that makes us increasingly individual-agnostic and more process driven.

In our efforts to reduce environmental footprints, Balrampur Chini Mills aligns its sustainable initiatives with the UN Sustainable Development Goals (SDGs). We operate with a sense of responsibility towards our communities and actively mitigate the impact of our resource-intensive operations on the surroundings. Our community-led initiatives are aimed at sustainable socio-economic development of underserved and underprivileged communities.

This is in line with our continued endeavour to adopt leading national and international ESG standards and ensure transparent reporting on our ESG practices. The boundary of this Business Responsibility & Sustainability Report covers the applicable operations of BCML as a standalone entity, unless otherwise specified.

24. Overview of the entity's material responsible business conduct issues¹²

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate ¹³	Financial implications of the risk or opportunity (Indicate positive or negative Implication) ¹⁴
1.	Supply Chain Management	Risk	Complex and interconnected nature of supply chains, involving multiple stakeholders, geographically dispersed operations, and intricate logistics, increases the vulnerability to supply disruptions, quality control issues, delivery delays, increased costs, and reputational risks.	Establishing strong partnerships and communication channels with suppliers, conducting regular supplier assessments to ensure compliance with social and environmental standards, diversifying the supplier base to reduce dependency on a single source, implementing robust risk management strategies to anticipate and mitigate potential disruptions.	Negative
2.	Community Relations	Opportunity	Fostering positive relationships with local communities, stakeholders, and indigenous groups can contribute to obtaining and maintaining a social license to operate, enhancing the industry's reputation, minimizing conflicts, gaining access to land and resources, promoting sustainable practices, and fostering mutually beneficial partnerships for economic development and social well-being.	The Company aims to ensure holistic development through its CSR initiatives by addressing various aspects of community well-being and sustainability.	Positive
3.	Employee Health & Safety	Risk	Nature of work and workplace conditions, including exposure to hazardous materials, operation of machinery, physical labour, and potential for accidents, necessitate prioritizing measures to ensure a safe and healthy working environment, safeguarding employees from occupational hazards, and promoting their overall well-being and productivity.	Implementing comprehensive safety policies and procedures, conducting regular safety training programs to educate employees about potential hazards and preventive measures, providing personal protective equipment (PPE) to minimize risks, regularly inspecting and maintaining equipment to ensure safe operations, fostering a culture of safety through communication and awareness campaigns, and establishing effective incident reporting and investigation mechanisms to identify and address safety concerns promptly.	Negative
4.	Forced or compulsory labour	Risk	Labour-intensive nature and vulnerability to exploitative practices within the supply chain.	Raising awareness through targeted campaigns and training programs to educate workers, employers, and communities about their rights and the importance of ethical labour practices and impose strict penalties for violations, enhancing enforcement mechanisms through increased monitoring, inspections, and audits.	Negative

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate ¹³	Financial implications of the risk or opportunity (Indicate positive or negative Implication) ¹⁴
5.	Product Quality & Safety	Risk	It allows businesses to meet the rising consumer demand for high-quality and safe products, enhancing customer satisfaction, loyalty, and trust in the brand.	Implementing stringent quality control measures, such as conducting regular product testing and inspections, adhering to industry-specific quality certifications, and maintaining strict hygiene and safety protocols, to ensure consistent product quality and safety in the sugar industry.	Negative
6.	Climate change	Risk	Taking proactive measures to reduce greenhouse gas emissions, energy use, and effectively mitigate the effects of long-term changes in the Earth's climate and their physical impacts on business operations, communities, and the natural environment. Engaging in advocacy and fostering partnerships with others to actively reduce the impact of climate change.	Implementing a comprehensive suite of mitigation measures, including energy efficiency improvements, transitioning to renewable energy sources, adopting sustainable practices throughout operations, promoting responsible resource management, and engaging in partnerships and advocacy efforts to reduce the impact of climate change.	Negative
7.	Water Management	Risk	Water scarcity, increasing competition for water resources, and regulatory pressures highlight the need for efficient and sustainable water management practices to mitigate the risk of inadequate water availability, potential conflicts with other water users, and potential disruptions to production processes	Water efforts include the use of recycled and treated water in our operations, as well as regular monitoring and optimization of our water usage and replenishing fresh water through water harvesting	Negative
8.	Packaging Material & Waste	Risk	Inefficient packaging practices, inadequate waste management, and environmental impacts associated with non-biodegradable packaging materials can lead to increased waste generation, environmental pollution, regulatory non-compliance, reputational damage, and supply chain complexities	Implementing sustainable packaging practices, such as reducing the overall amount of packaging materials used, promoting the use of recyclable or biodegradable materials, recycling plastic waste under EPR, adopting eco-friendly packaging designs, implementing efficient packaging processes. ---	--	--

Around 12000 awareness programmes were conducted to educate the farmers about the latest farming techniques, varietal replacement, cane seeds, pest management and other development activities which accounts for almost 90% of value chain.

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If Yes, provide details of the same

Yes, BCML has robust processes in place to prevent and effectively manage conflicts of interest involving members of the Board. The company has implemented stringent policies and procedures that require board members to disclose any potential conflicts. This ensures transparency, accountability, and the ethical handling of conflicts of interest within BCML's governance framework.

PRINCIPLE 2 Businesses should provide goods and services in a manner that is sustainable and safe

BCML believes in prioritizing resource efficiency as sustainable production and consumption contributes to improving the quality of life and helps protecting and preserving the earth's natural resources.

Essential Indicators

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY 2022-23	FY 2021-22	Details of improvements in environmental and social impacts
R&D	-	-	Though we have soil testing labs and tissue culture lab, we do not have a separate department categorized as R&D.
Capex	-	-	This year we have made considerable investments in technologies and recycling infrastructure which would increase process efficiencies and reduce emissions and effluents. However, we have not accounted for the same separately.

2. a. Does the entity have procedures in place for sustainable sourcing²⁶? (Yes/No)

Yes, we have procedures for sustainable sourcing as farmers constitute a vital part of our supply chain, and the close linkages between our Business and Indian agriculture provides a unique opportunity to engage with farmers. We engage in procuring the basic raw material-Sugarcane from the local farmers/ nearby farmers, supporting their individual livelihoods. We have also complied with the Bonsucro standards of sourcing for one of our plants.

b. If yes, what percentage of inputs were sourced sustainably?

Yes, 100% of inputs were sourced sustainably as we procure all our raw materials from the farmers, who deliver the material on their tractor trolleys at the main gate of the plants. We arrange the pickup for the remaining sugarcane at the centres which are closer to the farmer's village to facilitate the offloading of sugarcane. Once the offloading of raw material is done from these centres, we arrange for the transportation of sugar cane to the plant by our own transportation.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste²⁷.

Name of Product/ Service	Process to safely reclaim the product
Plastic (including packaging)	BCML adheres to applicable laws and regulations to ensure the responsible management of plastic waste. In compliance with the plastic waste management rules of 2016, BCML utilizes various types of plastics, including multi-layer plastic, as packaging materials. The company follows proper disposal practices by handing over plastic waste to authorized vendors approved by the Central Pollution Control Board (CPCB). Furthermore, BCML fulfills its Extended Producer Responsibility (EPR) obligations concerning plastic usage.
E-waste	In compliance with the E-Waste (Management) Rules, 2016, BCML collects its e-waste and ensures its proper management and disposal. BCML ensures that the e-waste is handed over to authorized vendors approved by Central Pollution Control Board (CPCB).
Hazardous waste	BCML manages hazardous waste in accordance with the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016. The company ensures proper handling, storage, and disposal of hazardous waste, adhering to the guidelines specified in the rules.
Other Waste	Depending on the specific location of each plant or office, BCML manages non-hazardous waste in the most suitable and environmentally responsible manner. In areas where municipal waste management systems are available, BCML disposes of non-hazardous waste through those systems. In cases where municipal waste management systems are not accessible, BCML ensures proper disposal by engaging government-approved vendor.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, BCML's activities fall under the scope of Extended Producer Responsibility (EPR) as outlined in the Plastic Waste Management Rules, 2016. The company has developed a waste collection plan that fully complies with the requirements of the EPR plan submitted to the Central Pollution Control Board (CPCB).

Note: We invested in environment friendly equipment, helping convert press mud (waste) and fly ash (waste) into rich fertilizers and carbon dioxide (GHG emission released in distillation process) into dry ice.

Our co-generation power plants generate power from the use of bagasse, a byproduct generated from sugar manufacture. The generation of 71.87 crore units of power in FY22-23 substituted the use of fossil fuels, helping reduce greenhouse gas (GHG) emissions.

Almost 100% of molasses, generated through cane crushing operation is utilized to manufacture ethanol. Also, bagasse generated from sugar crushing operations and spent wash, generated from distillery operations are used as fuels for generating clean energy. Also, Boiler ash generated from the incineration plants is converted into agro-input. Also, the spent-wash is utilized to produce bio-compost (manure) of rich-nutrients for plants and recycled to maintain soil nutrients.

Leadership Indicators

1	Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.
	<p>We constantly work towards addressing the concerns that are most important to our stakeholders and our business in this rapidly changing environment. Understanding these challenges is something we always strive to achieve since doing so enables us to define our strategic priorities and communicate with our stakeholders about the topics that matter most to them. Additionally, we interact with various stakeholder groups to learn about their opinions and worries on the important issues that have been highlighted. It aids in the definition of these tangible elements and the construction of a roadmap for long-term value. Additionally, the material components are selected and shortlisted through this assessment.</p>

2	Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.
	Yes, stakeholder consultation is crucial to the Company's operations as it is committed towards addressing and safeguarding the interests and concerns of its stakeholders regarding the identification of the key issues which are material to their business. We ensure the same by investing in environmentally friendly processes and technologies that help us in mitigating and minimizing any negative impact. For its key stakeholder, the farmers, we have made efforts to address their concerns by improving their standard of living through our CSR initiatives and obtaining cane at fair and better prices.
3	Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.
	Farmers are one of the most important stakeholders for our business and we ensure that we maintain cordial relationships with them and ensure that their grievances and issues are addressed effectively. We have taken several initiatives to address concerns of our primary vendors i.e. the farmers by providing them with agriculture inputs, empowering education and sustainability and by working towards their livelihood enhancement by rural development.

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business⁵²? (Yes/No)

Yes, BCML has established a comprehensive Human Rights policy to address and manage human rights impacts, issues, and related matters. The company has implemented a robust Grievance Redressal mechanism to effectively address employee grievances concerning the company's policies and work environment. Additionally, BCML has formulated a policy specifically focused on the Prevention of Sexual Harassment, ensuring a safe and respectful workplace. Any reported incidents are thoroughly investigated by the Internal Complaints Committee, underscoring BCML's commitment to maintaining a workplace free from sexual harassment.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues⁵³.

BCML has established robust internal mechanisms to address and redress grievances related to human rights issues. These mechanisms include designated channels for grievance reporting, such as dedicated email addresses, ensuring confidentiality and anonymity if desired. The company has a designated grievance redressal team or committee responsible for promptly investigating and addressing reported grievances. Employees and stakeholders are provided with clear information on how to access these mechanisms and are assured of protection against any form of retaliation for reporting human rights concerns. Water intensity per rupee of turnover [(Water consumed / turnover) Litre/ Rupee]	0.062	0.053

Notes: 1) SGS India Private Limited, an external agency have carried out independent assessment/evaluation/assurance for FY 23

2) Condensate/recycled water for FY 22-23 is 2730773 KL and FY 21-22 is 1857166 KL. In 2022-23, since the cane crushing was higher and also the distillery capacity had doubled from 560 KLPD to 1050 KLPD, volume-wise withdrawal has nominally increased. However, ground water withdrawal on per MT basis has actually reduced due to extensive usage of recycled water.

4. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation⁵⁹.

We have implemented zero liquid discharge (ZLD) process at all our distilleries to ensure that no industrial effluents are released into the environment.

5. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

7. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details⁶¹.

Company is committed to reduce GHG emissions resulting in investing 58.25 crores for lower steam consumption as following:

- i) installing SRTC (Short Retention Time Clarifier) units & addition of 5 falling film evaporators at Balrampur unit,
- ii) change of old Pan to new design at Rauzagaon,
- iii) addition of modular compartment in continuous Pan & installation of semi kastner at Mankapur,
- iv) installation of falling film at evaporator & modification in evaporator configuration at Kumbhi unit,
- v) installation of 3 falling films & 2 Robert bodies at Maizapur unit

thereby enabling steam consumption to 41% for FY 2022-23 from 42% in FY 2021-22 leading to less consumption of energy from non-renewable sources & leading to lower GHG emissions.

8. Provide details related to waste management by the entity, in the following format⁶²:

- 7 Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.**

Yes, Business Continuity Plans are defined for risks corresponding to High Impact and High Velocity to enable rapid response to address the consequence of such risks when they materialize. Business Continuity Planning is embedded in the Internal Controls and Crisis Management framework for areas like manufacturing units, sales offices, information technology function, etc. Further the disaster management plan is part of the IT & Cyber security policy of the company.

- 8 Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.**

To conserve resources we promote sustainable farming practices in sugar cane cultivation areas and partly source Bonsucro certified sugar cane. For restoring the organic balance in soil and to enhance agricultural productivity, soil mapping and testing facilities are provided to farmers along with guidance on soil health. These practices result in water conservation and regeneration of soil.

- 9 Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.**

Our cane team assist farmers (around 90%) in sustainable farming techniques through integrated cane management system and Balram app.

PRINCIPLE 8 Businesses should promote inclusive growth and equitable development

BCML's CSR vision is 'to contribute for bringing social and economic change to the underprivileged sections of the society in an equitable and sustainable manner and to contribute for livelihood enhancement initiatives for the weaker sections of the society. In doing so, we believe that we are contributing to develop the quality of human life and making a better India.'

BCML has enriched community lives through sustainable livelihoods, education, healthcare, sanitation, and rural infrastructure development in Uttar Pradesh (where its manufacturing facilities are located). The Company collaborates with governments, district authorities, village panchayats, NGOs and other likeminded stakeholders that widen its reach and help to leverage upon the collective expertise, wisdom and experience that these partnerships bring to the CSR activities.

The Company aims and endeavours to be a rural prosperity driver for and its CSR efforts, which are effectuated accordingly for the community members around the peripheral areas of its factories.
